

Docket: 2003P11735  
Application: PCT/DE2004/002123  
Prel. Amendment dated March 27, 2006

**Remarks:**

The preliminary amendment is being filed in an effort to present an application in proper U.S. format and to present claims in proper U.S. claim idiom for examination.

The newly entered claims are fully supported in the original claims filed in the international application.

An early action on the merits is requested.

Respectfully submitted,

  
For Applicants
